Universal Health Care's Formulary

The formulary that begins on page 1 provides coverage information about some of the drugs covered by Universal Health Care. If you have trouble finding your drug in the list, turn to the Index that begins on page 27.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., NEXIUM[®]) and generic drugs are listed in lowercase italics (e.g., *omeprazole*).

The information in the Notes column tells you if Universal Health Care has any special requirements for coverage of your drug.
