Alphabetical Listing of Providers

This provider directory lists participating physicians and providers in the Universal Health Care network, providing service to individuals with Universal Health Care coverage. All medical professionals in this directory were participating in the network at the time it was printed. Since the listing may have additions or deletions after printing, please check when making an appointment to ensure your physician still participates. It is your responsibility to determine if physicians and providers are still active in the Universal Health Care network at the time you receive service. By selecting a participating provider, you are eligible for your full benefits under your coverage. Depending on the benefits plan you have purchased, you will have no coverage, or limited coverage, if you receive medical treatment from non-participating providers.

UNIVERSAL HEALTH CARE, INC.
INDIVIDUAL HEALTH PLANS
DIRECTORY OF PHYSICIANS AND PROVIDERS

Welcome to the Universal Health Care (UHC) *Medical Provider Directory*. This directory lists the health care primary care and specialty physicians, hospitals, and other providers available who offer services to UHC members. Our network is growing and we encourage you to call and inquire about any physician or provider who may have recently joined the network. This Directory is current as of the date indicated on the cover and inclusion of a physician/provider does not guarantee that the physician/provider is still participating in the network or accepting new members. This information is also available on-line at www.univhc.com.

Our Mission

We are an innovative and dynamic organization dedicated to delivering personal, professional and proactive healthcare to our members. Our commitment is to partner with our members in their journey to a healthy, fulfilling, and meaningful life.

How to Use the Directory

This Directory includes a listing of over 100 network primary care physicians, specialty physicians, ancillary providers, and facilities – including hospitals and skilled nursing facilities. Each physician/provider within a group is listed separately. Note that primary care physician information is by zip code and sorted alphabetically within the zip code. The section entitled “Specialty Physician” is alphabetical by specialty type and the physicians are listed alphabetically within each category of specialty. Providers listed as “ancillary” include all participating providers except physicians. Some examples include occupational therapy, chiropractors, and laboratory locations. The Directory also includes an alphabetized index for ease of access. The index includes a list of all physicians/providers with the corresponding page number where additional information may be found for a particular provider such as their address and telephone number

Plan Service Area

Universal Health Care, Inc., provides coverage in Hernando County, Florida, including the communities of Brooksville and Spring Hill.

Credentialing Standards

Each participating physician has successfully completed the Universal Health Care, Inc. credentialing process. We review credentials using standards developed by national accrediting agencies. All education, training, and licensing information are verified as accurate with the appropriate public, government, and private agencies. A final evaluation is prepared on a local level and reviewed by the UHC Credentials Committee prior to final approval.

Physician screening includes: medical license, training and board certification, network hospital admitting privileges, and malpractice history. **Hospital screening includes:** accreditation verification, Medicare certification, number of physician staff who are board certified, the range of medical services offered, and the ratio of staff to patients..

Appointment access has been confirmed through the “Attestation” process as well as verbal confirmation that each practice is capable of handling additional new patients. All primary care physicians (pediatricians, internal medicine, and family practice) are required to successfully complete an initial Site Survey with follow-up surveys every three (3) years. An ongoing process of re-credentialing for every participating physician supports the initial credentialing. Re-credentialing

ensures that all UHC physicians meet the stringent requirements necessary to continue as participating providers with our product lines.

Member Service Department

The Universal Health Care Member Service Department is available to answer your questions and assist in resolving your problems. We are available Monday through Friday from 8:30 a.m. until 5:00 p.m. Our telephone staff is here to assist you through the lunch hour. You may leave a voice mail message “after hours” or on the weekend for follow-up on the next business day. Please call us for assistance in changing your primary care physicians, making an address change, clarifying your co-payments, premium, deductibles, benefits, etc. You may reach our Commercial Member Service Department staff by calling 1-866-690-4842. We have Spanish-speaking staff available to assist you. For hearing impaired members, please call 1-800-619-0177.

Emergency Services

Symptoms that may signal an emergency, include but are not limited to: difficulty in breathing; bleeding that is not controlled by local pressure; a sudden change in mental status such as unusual behavior, confusion, or decreased alertness; sudden severe pain anywhere in the body; vomiting of blood. In the event of an emergency, you or a family member should call “911” or go to the nearest hospital emergency room. Additionally, you or a family member should notify your personal Primary Care Physician as soon as possible. Universal Health Care should also be notified within 24 hours—or as soon as is reasonably possible. Simply call the Member Service Department number on your member identification card.

For more information you may call our Member Service Department at the telephone number on your identification card.

Urgent Care Services

Illnesses and injuries of a less serious nature than an emergency may require urgent care. Urgent Care Centers are generally open evenings, weekends, and some holidays. They are designed to provide patients with fast, effective service. These facilities treat conditions such as minor injuries and cuts, upper respiratory infections, ear infections, sprains, sore throats, and urinary tract infections. Remember to always contact your Primary Care Physician during office hours, as they are available to treat urgent and emergent health care problems.

Although emergency medical conditions should always be evaluated and treated at a hospital Emergency Department, going to an Urgent Care Center will save you money for non-emergent medical care. The UHC Plan offers a lower co-payment when you visit an Urgent Care Center as opposed to a hospital Emergency Room.

Out Of the Service Area Coverage

When you are outside the UHC service area, your coverage is limited. UHC Commercial Health Plan only covers care for medical emergency, urgently needed care, renal dialysis, and care that the UHC Commercial Health Plan or a plan provider has approved in advance. If you have any questions about coverage while traveling, call Member Services at 1-866-690-4842.

Your Primary Care Physician

You will select a primary care physician (PCP) at the time of enrollment. The name and telephone number of your PCP will appear on the identification card. If you would like to choose a new personal physician for any reason, you may do so at any time. To choose another PCP, you will need to call our Member Service Department 800 number at 1-866-690-4842. If your request is made prior

to the 10th day of the month, you will be effective with the new PCP on the first day of that month. If your request is made on the 11th day or after, you will be effective with the new PCP on the first day of the following month. A new identification card will be forwarded in the mail.

Family Practitioners/General Practitioners are physicians who provide a broad range of medical care for all family members and all ages. Physicians who specialize in the diagnosis and treatment of disease in adults have completed training in *Internal Medicine*.

Pediatricians are doctors who specialize in health care services for children from birth to age 16 years. *Obstetricians/Gynecologists (OB/GYN)* are physicians specializing in health care for women and act in the capacity of primary care physicians for women who are pregnant.

To ensure timely access to medical care, some primary care physicians may not be accepting new patients. These physicians are noted in the directory as “Not Accepting New Patients”. If you have a question regarding whether a doctor is accepting new patients or continues to participate with UHC, please contact our office directly.

Lock-in

Lock-in means that under Universal Health Care, Inc., you, the member, are “locked-in” to the use of network providers and suppliers. All health care (other than emergency services, urgently needed care, or kidney dialysis services when temporarily outside of the service area) must be provided by network providers or authorized by us. Any use of non-network providers, except as noted, will result in your obligation to pay for these services. Universal Health Care will not pay for these services.

Prior Authorization

Some medical services need advance approval. Some services are only covered if your doctor or other plan provider received “prior authorization” from the Universal Health Care Plan. Your doctor must request a referral/authorization prior to the date of service to ensure approval and payment of requested services.

Specialty Physician Services

Specialty physician visits require a referral from the primary care physician (PCP), except for the Chiropractor, Dermatologist, Psychiatrist, Podiatrist, and Obstetrician/Gynecologist for the Well Woman visit. FOR LIMITATIONS OF THE LISTED DOCTORS, PLEASE SEE THE SCHEDULE OF BENEFITS AND THE EXCLUSIONS AND LIMITATIONS SECTION OF THE SUBSCRIBER CONTRACT. You should schedule an appointment with your personal primary care physician and discuss any needs for specialty physician services. The referral form tells the specialist what services are authorized by UHC. Members must also obtain a referral from their PCP for any special medical/diagnostic test(s) or treatment(s) that cannot be performed in the primary care physician office.

Specialty/Ancillary Provider Sub-Networks

Certain Primary Care Physicians (PCP) may elect to work with a sub-network of specialists, ancillary providers and/or hospitals. These PCP’s have established strong working relationships with particular specialists, ancillary providers, and/or hospitals within the medical community. Members who elect to choose one of these PCP’s as their personal physician, will be referred exclusively to this sub-network of specialists, ancillary providers, and/or hospitals for their care. Primary Care Physician’s who elect to establish these networks will have an asterisk “*” next to their name.

Other Physician Services

Members may visit participating (network) dermatologists up to five times each calendar year without a referral from the PCP. Women may receive an annual (contract year) “Well Woman Check-Up” through a participating (network) obstetrician/gynecologist without a referral one time per year.

Services Outside the Physician/Provider Network

Services received from non-network physicians/providers will not normally be covered for payment by Universal Health Care, Inc. If you receive care by a non-network physician/provider and feel it should have been covered under your Universal Health Care Plan, you should not pay the bill. You should submit the bill to our claims department for review. Send the bill to Universal Health Care, Inc., Claims Department, **P.O. Box XXX**, St. Petersburg, FL 33731-0294. UHC will review and make a coverage determination regarding coverage and your liability.

Second Opinion

UHC members have the right to a second medical opinion by a physician of their choosing. Members may select a participating (network) physician or a non-participating physician in the UHC service area. There are no additional costs other than the normal office co-payments, if any in-network physician is selected. UHC will pay sixty (60) percent of the Medicare prevailing rates if the member chooses to go outside the network for a second opinion. A maximum of two (2) second opinions are available to a member each calendar year.

Transplant Services

Universal Health Care (UHC) provides access to medically necessary transplant services. You would have access to a network of transplant programs located at medical centers throughout the contiguous United States. These selected facilities have shown excellence in the field of organ transplants. Access to this network provides individuals with an opportunity for the best transplant outcomes available.

An Important Note About Our Services

Universal Health Care (UHC) does not provide health service or practice medicine. Rather, UHC arranges for physicians and providers of health services to participate in a network arrangement. Participating network physicians and providers are independent contractors and are not employees of UHC. Universal Health Care makes payments to network physicians and providers through various types of contractual arrangements. These contractual arrangements may include financial incentives (bonuses, capitation payments) to promote the delivery of health care in the most cost efficient and effective manner. Such financial incentives are not intended to impact your access to medically necessary covered health services. If you have questions about financial incentives in your doctor’s contract with UHC, please feel free to ask your doctor. UHC makes administrative decisions regarding benefits and medical necessity for payment purposes only. Universal Health Care is not liable for any omission a physician or provider may make regarding medical services.

We believe that medical decisions rest between you and your personal physician. You are responsible for choosing your physician. You must decide if the doctor you choose is the right one for you. You must decide, with your personal physician, what medical care you should receive. Your doctor is solely responsible for the quality of care you receive.
